RE: Atlantis
 Paradise Island, Bahamas

Dear Dan:

As Zeta completes the last of our utility construction on Paradise Island, I look back over our accomplishments in this difficult place to work and I am most pleased with the work that RTD and your Superintendent, James Vicneire, did as our subcontractor. The removal and replacement of a 10 million gallon covered, potable water storage tank is no small feat even in the United States. To travel to the Bahamas and erect one with the speed and grace you displayed is marvelous.

My one regret is that we never got to test your crew on traveling down to take care of warranty items. It has been about 4 years now, and there have never been any warranty items.

Zeta remains dedicated to the proposition that we will give Owners and Engineers a perfect project, even if they don't deserve it. RTD is on our permanent list of subcontractors that share that philosophy and who can be relied to do what they say.

Kindest regards,

Eric D Crawford
